Technical, production-heavy producer with 6 years leading VR, 360° video and interactive work from first pitch to final install: location shoots, set builds, cross-functional teams of 30+ and budgets up to $1.2M. Now bringing that range to physical, narrative environments.

EXPERIENCE

Data Governance Program Manager

Inspire Brands · Atlanta, GA · 2024–present

- Led design and launch of a company-wide Data Catalog used by 500+ employees, shaping the user journey, onboarding and visual style with designers.
- Built and scaled the documentation and onboarding systems that let teams across the business adopt and maintain it.

Creative Producer / Program Manager

Axon · Atlanta, GA · 2022–24

- Pitched, won $750K+ in funding for and directed Interactive 360° TASER Training, combining branching 360° video with Unity interaction.
- Produced and directed four 360° shoots on location in Poland and Los Angeles, owning $500K–$1.2M budgets from SOW to delivery: casting, scouting, set builds, crew and vendors, and post.
- Built and ran the project plan for six VR training modules now used by 1,000+ U.S. agencies, leading 30+ developers and designers across U.S. and Poland teams.
- Carried production workflows and in-flight projects through Axon's acquisition of Foundry 45.

Experience Designer / Project Manager

Foundry 45 · Atlanta, GA · 2020–22

- Designed and project-managed the award-winning Rheem hybrid water heater VR tutorial, delivered ahead of schedule.
- Co-led design and motion capture production for a police training proof of concept that contributed to Axon's acquisition of the studio.
- Ran logistics, distribution and analytics for 200+ VR kits shipped to Boys & Girls Clubs nationwide (Road Code).
- Led creative and technical teams for Delta, UPS and TriMet: interactive tutorials, on-site user testing and iteration with clients.

SELECTED WORK

ALA 2021 Open-world interactive documentary on my grandmother's life in 1950s Puerto Rico; oral history, depth-mapped archival photos, built in Unity.

A Father Is Persevering 2021 Collaborative 360° film made with an incarcerated father advocating an end to mandatory minimums.

LEN1 2020 AI ethics installation: a GPT-2 "Lawrence" in a VR home that visitors could question.

Interactive Museum 2018 VR installation controlling live gallery displays, integrating Unity with web systems.
